

Spies Hecker Speed-TEC System

Course Details:

This new course for 2021 will give attendees an understanding of the patented Axalta technology behind the Spies Hecker Speed-TEC range. Attendees will learn and use the complete Speed-TEC system and see first-hand, the benefits and quality of this new technology.

Main Spies Hecker Products used during this course:

- Priomat Reactive Pre-treatment Wipes 4000
- 5550 Wet on Wet Speed Surfacers
- 5500 HS Speed Surfacers
- Hi-TEC Waterborne Basecoat
- 8810 HS Speed Clear

Lowering energy costs and raising paint shop productivity without costly equipment investments are also a focus for this training seminar.

Who should attend:

Refinishers and managers looking to improve paint shop productivity and quality without investing in additional drying equipment. Attendees should have some experience with waterborne as colours will be applied in waterborne basecoat however it's not crucial.

Perfect for those advanced refinishers wanting to keep up with the latest products and technologies.

Duration: One day

What you need to bring:

Attendees should bring safety boots and work clothes. Axalta will supply Spray overalls and PPE. All items for practical and theoretical sessions will be provided. Lunch is also provided.

What you leave with:

On successful completion attendees will leave with an understanding of the Spies Hecker SPEED-TEC System, along with its productivity gains and energy savings. A Certificate of completion is also presented to the attendees.
